

# Wessex Research Group Network *Newsletter*

VOLUME 5, ISSUE 7.

July 2010

July sees the launch of a new bi-monthly publication called UFO Matrix Magazine and the first issue of a newsletter entitled "Paranthropology: Journal of Anthropological Approaches to the Paranormal" (see *back page for further details*). Also launched are Webinars; a series of free on-line seminars located at the web site <http://www.eraofpeace.org/videos.php>. The Webinars are divided into eleven chapters, enabling the viewer to watch short portions, as time allows. Webinar segments can also be easily reviewed allowing content to be re-watched.

The latest addition to the on-line Wessex lecture archive is *Spiritual Man and the End of an Age* by Canon Peter Spink. *The Challenge of Our Time* by Patricia Diane Cota-Robles is the latest addition to the on-line article archive, with *Cosmic Connectivity* and *The New Age* the latest additions to the on-line video archive.

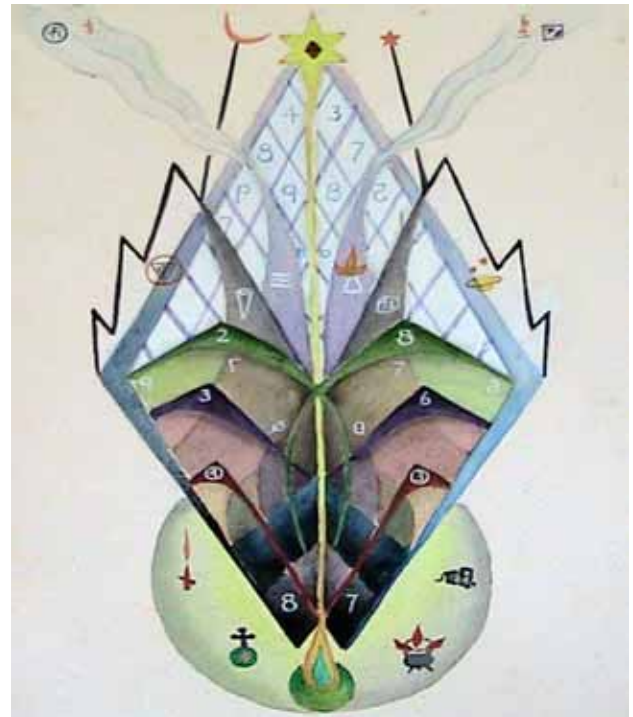

## ***Matter, Thought and Spirit.***

**By Hasim**

The passage in to the Aquarian Age is a challenging one because there is no preconceived template, no ready format or structure for us to follow in coping with the changes we are experiencing.

Central to this transition is recognising that a fundamental change in the relationship between thought, spirit and matter is taking place. Our human tendency is to respond to change by rebuilding according to known templates, referring to patterns of previous experience to explain the present position and to predict the future. Could we then attempt to forecast how a change in the balance between matter, thought and spirit might affect us? The application of the power of our computer technology might reveal the possibility to manifest an almost infinite number of futures, for example those that have a completely different technological base or where money is not required.

The changes that are taking place are so subtle that they do not invoke differences visible to the naked eye, but the barriers between what is and what isn't physical (material) are beginning to overlap. The nature of the material world is already changing, a process triggered by subtle changes in the planetary etheric vibration which are altering at a sub atomic level, the way in which matter interrelates with thought and spirit. Eventually matter and spirit will be able to transmute from one to the other, enabling the worlds of thought and that of the material to interact in a more immediate and homogenous way. Thought will become increasingly important in the way it can influence and control matter.

***Above: The Deva of the Heights***

We are then, experiencing a change in the energetic balance of the planet; something that will not only reshape our reality, but reshape ourselves from the inside outwards. One thing we shall notice is that human consciousness will no longer be separate from the universal ocean of thought and consciousness. Imagine what it would be like to be part of a new reality where we could communicate by thought; with each other, the spiritual realms, extra terrestrials and the elemental kingdoms.

With respect to the latter, we would be required to manifest a new relationship and understanding, working in partnership with the elemental kingdoms. This would be a partnership of thought through spiritual awareness and integrity, a higher way where we recognise our responsibilities as co-stewards of the Earth. Such a partnership would only work if our thoughts were borne out of those highest aspects of spiritual and cosmic law. It would take this for the elemental kingdoms to trust and accept us. Like us they are also experiencing a quantum shift in consciousness.

The Piscean age has been about the development of compassion and interdependence through the experience of matter; achievable because of definitive boundaries between matter, thought and spirit. The new age is about brotherhood, equality and rediscovering ourselves as spiritual beings that are part of a wider, fluid and interchangeable universe.

**Paranthropology**

The first issue of a new newsletter entitled "Paranthropology: Journal of Anthropological Approaches to the Paranormal" is set to be released this July. While the main emphasis of the journal is on anthropological approaches, it will also branch out into other disciplines - psychology, parapsychology, sociology, folklore, history - as a means to explore the way in which these theoretical methodologies interact and shed light on the paranormal. If you would like to receive this free newsletter visit the website <http://paranthropology.weebly.com/newsletter.html> and fill in the form. If you would like to contribute an article (between 500-1,000 words) to future issues please contact Jack Hunter via [discarnates@googlemail.com](mailto:discarnates@googlemail.com)

**UFO Matrix Magazine**

UFO Matrix Magazine is a new bi-monthly publication dealing with any and all aspects of the UFO phenomenon.

The first issue will see features such as: A Conversation with Kenneth Arnold by the late Bob Pratt and Roswell and the Senator by Don Schmitt. The Isodoro Ferri UFO landing case from Italy also demonstrates the international scope of this publication. We will also have UFO sightings, encounters, news and reviews and Dr David Clarke looks back at this year's MoD UFO files in the UK. Some recent UFO photographs from different parts of the world are also featured. In short, if you are interested in the UFO subject then this magazine has something for everyone. **Book Review: The Revolution of 2012. Volume 3. Taking Action.**

**By Andrew Smith**

As the world goes deeper into the transition from the old world to the New Golden Age, the reader is invited to face the realities of irrevocable and profound change in life conditions for humanity. There is a choice facing each of us to make changes in our lives, in preparation for a new path forwards, or stay locked in the world and ethos of consumerism, the current expression of mainstream secular life.

With the planetary system of Nibiru (planet X) drawing closer month by month, major alterations to the physical layout on Earth are inevitable. The intense gravitational force and magnetic fields of Nibiru will cause havoc to the world's computer systems and every operation they control.

The reader is taken through the essential stages of individual transformation to allow the release of old modalities from times past so we can embrace the deep inner transformation necessary to reach Fifth Dimensional Consciousness. It is time for taking effective action through forming community groups to achieve sustainable self-sufficiency on the land within a sound and lasting partnership with Nature.
