All That We Are

By Patricia Snelling Davis

The Uni-Verse is an 'experience-place' for the I AM, the experience of focussed / specific points in Time and Place / Space. The I AM is a Verb not a thing, it is a Doing-ness, Becoming-ness in All Times and Places simultaneously in the Now of Eternity. The Soul choice is – which experience to have in any one time / place – as which Aspect / Archetype of the All / One.

We become absorbed in our experience through emotions, losing all sense of Our Self. Reversing this experience i.e. becoming absorbed in the Now moment with full awareness of all experience (i.e. awake not lost in the dream/illusion) will bring us back to Real-isation of Our Self and its capacity for Infinity, no boundaries, All Wisdom/Knowingness, Joy and Peace.

All guilt, sorrow, fear, anxiety arise from living in the linear past or future (including the so called Karma of 'past / future' linear concepts, held in the Astral energy shell). Animals and plants live in this present moment, but – as far as we know – have no awareness. The linear time of clocks and calendars are human concepts, have the effect of enforcing the limitations of this 3rd dimension.

Native peoples, and Nature itself, do not have these. Cycles in spirals are their natural concept. Time is in truth - a subjective inner experience, we continue to live in our memories long after they have passed and live forever in our anticipations, no matter what arises in the present moment. All that we believe that we are - is made from phantoms and dreams; we identify as them.

Above: Dawn of the New Age (courtesy of Emblinka)

Psychic development is the awareness of the experiences of other co-existing / astral life-forms. Spiritual development is the expansion into the awareness of other dimensions, as well as this dimension, of Time / Place (Space) – the All / One. This happens, normally, gradually as we learn to navigate and live in these other dimensions as well as this dimension. This is not easy and involves 'tests and trials' as we open to, and experience them. It takes a lot of our time before we can acclimatise ourselves to spend longer and longer 'there' without bringing on mental and emotional illnesses. The same happens after 'death' of the physical body, for those who do not venture 'out / in' in this material life.

'Life' = Experience.

We need to use fully our five senses outwardly and this means first of all – becoming aware of what is, as it is happening. Memories are not 'real', so we have to experience as we live, not block experiences into one of two boxes of 'liked / disliked', bad / good etc. Blocking causes tension, pain, numbing and various dis-eases according to the body areas where the life-energy is being blocked. Our Body speaks our Mind – our concepts, our perceptions for us in signals, as symptoms and we suppress / repress these symptoms at our peril, in our ignorance.

Suffering – physically or emotionally – gives us the initial indication that our boundaries are being blocked, limited, withdrawn, contracted into blocks within our flowing multi-energy multi-levelled personal fields.

Book Review: UFO Case Files of Scotland. Volume 2. The Sightings.

By Malcolm Robinson

UFO and Paranormal researcher Malcolm Robinson takes another look at the hundreds of UFO sightings that have been witnessed in the Scottish skies.

Our journey takes us from the Scottish Borders up through to Central Scotland and onwards to the very tip of North West Scotland, areas of which have been subjected to some amazing UFO sightings. This book contains fascinating witness accounts of objects which do not conform to normal helicopters or aircraft. We hear of puzzling UFO accounts from housewife's to Military personnel, everyone has a story to tell and you'll find them all here in this fascinating book.

Malcolm Robinson is one of the foremost UFO and Paranormal researchers in the United Kingdom. Malcolm has lectured extensively on UFOs and the Paranormal all over the UK, Ireland, France and Holland, and was the first Scot to lecture on American soil in Laughlin Nevada in 2009 and one of only a handful of people in the world that has travelled down into the murky depths of Loch Ness in a submarine. This is a fascinating book that will make you sit up and recognise that Scotland as a Nation has also been touched by the UFO presence. For further information log on to www.healingsofatlantis.com

All That We Are (continued from Page 1)

We need, if we are sense-able and intelligent, to go into the tension, pain, pressures, numbness, dis-ease and read its message, live within the message by experiencing it fully then expand into its greater reality of the environment, the situation, the people involved.

This will take us out of our ego (which divided self into personality + shadow) expand, by releasing all limits and restraints into the Unity of the Spirit of the Trans-Personal Whole, dissolving the resistance of the false boundaries and accepting the truth of Who-We-Are – consciously.

Symptoms – body or emotions – need to be translated and are opportunities for growth, not disasters. They will tell us what our unconscious self-images are, formed during our early years, then deepened by our subjective anticipations and therefore perceptions during subsequent events. Events are impersonal, objective; experiences are very personal and subjective. These form our personal history / his-story or her-story.

We re-claim responsible-ability for our experiences and grow into more and more of our potential for total humanness, accepting and transforming wider, deeper, higher aspects of the Whole. We can only do this by giving UP all bands of opposite polar identities, in ourselves, in others, in Life itself, making Conscious what was unconscious.

We begin, more and more, to be able to choose our thoughts, emotions and body conditions. Other people do not 'upset' us, we do it to ourselves; we up-set our own emotional fields, like spilling a drink. We become aware of the inner war between the polar fields of this 3rd dimension, creating resisting barriers and boundaries. Others are giving us opportunities to find these barriers and the way we limit our own growth.

We make real – All that We Are, whilst still in this Life, these experiences, and prepare ourselves for the after-physical-death experience and will not NEED to experience the Karma, which is a tough, rough reinforcement and re-deepening our experiences until The Light Dawns and we awake. Then we Are En-Light-ened. For further information about the work of Patricia Snelling Davis log on to www.psychicsanctum.org

DVD Review: Intuition - Your Hidden Treasure

By Adrian Incedon Webber

Dowsing works for just about everyone. It's an ability rooted in using the intuition that we all possess. From the basics of the ancient skill to an introduction to its more advanced applications, on this DVD Adrian covers a remarkably wide range of the uses and abuses of dowsing. If you have some experience of dowsing, there is much here with which you will resonate. If you are new to dowsing - or if you have never really heard of it - this is a very appropriate place to start. With a professional presentation, delivered in a homely style, Adrian walks and talks his way through various important aspects of using your intuition. Sincere without being too serious,

and humorous - but never flippant, this is a DVD that will appeal to anyone with a smidgeon of interest in the subject. It will raise your curiosity, while advising due caution. I guarantee you will be showing it to your more sceptical friends. Dowsers with many years of experience, will find themselves reaching for their rods. The Network in our Times

By Paul Fletcher

We are living through momentous times. A great struggle is underway between those who wish to serve and co-operate and those who favour materialism and separateness. This is being played out on many levels from the world of international politics through to the neighbourhood and our family homes. Have you noticed how there is almost a script being played out in time? The earthquake and tsunami of Boxing Day 2004, followed by the earthquake of Easter Monday 2005, and more recently the Japanese Tsunami of 2011. All of these events as well as the many others have led to the outpouring of compassion and human resources from humanity.

Sometimes it is difficult for us to understand these 'events' with our rational minds but what is becoming clear is that through global media we, humanity, are being given opportunity after opportunity to come together and meet our responsibilities for the coming era. The campaign to end poverty (www.one.org) is perfectly timed to challenge our comfortable western lifestyles and point out that 'sharing' is one of the keys to spiritual progress and future world peace.

Our challenge as humans is to rise to this occasion in time and space. We stand between the Higher Powers, those kingdoms of angelic form and the lower kingdoms of animals, vegetables and minerals – the essence of Gaia. We are the intermediary. During the Network of Light meditations at 9.00.p.m. on the first of every month (see www.networkoflight.org) many people are aware of this co-operation between these three forces. Whether meditating in ones or twos or as a group we help to strengthen the forces of integration and by using the Great Invocation we help to distribute the required energies of synthesis throughout the world. These energies then begin to play upon the form of things and have their effect. Co-operation, cohesion, integration. These are the keynotes of the present.

"Heaven, Earth and I are living together, and all things and I form an inseparable unity." Chuang Tzu, Chinese Sage
