July 2021

**J**uly 2021 offers a variety of in-person and on-line events. Traditionally the warmest month in the northern hemisphere and the coldest in the Southern, the month was once known as Quintillis but was renamed July by the Roman Senate in honour of the Roman general, Julius Caesar.

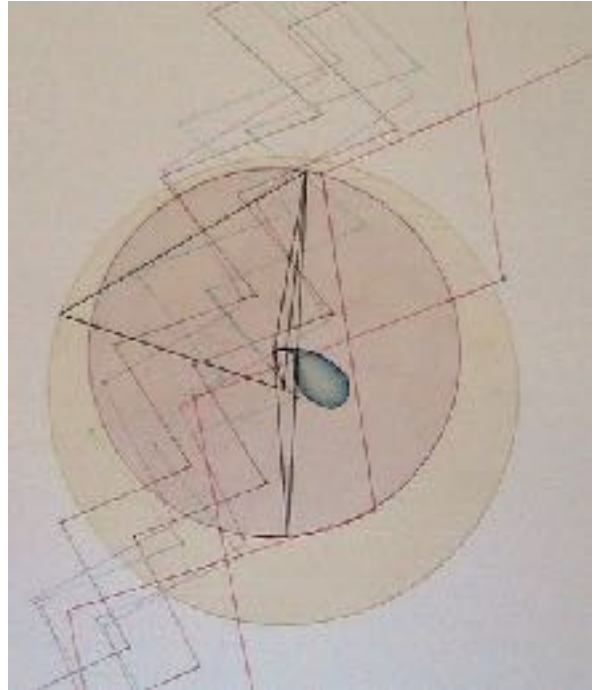

## ***Earth Changes and Consciousness***

**By Claudia Rice**

Described in the Old Testament as Noah's Flood, the last great planetary re-alignment happened around 6,000 years ago. We are now in the midst of another re-alignment, one that involves a change in the energetic template for life on the Earth. Energetic re-alignments enable growth in consciousness and an expansion of soul wisdom.

In this time of change humanity can be broadly split into three groups. The first have no interest in unfolding events. The second group are aware that things are changing and have some understanding of the significance of the relationship between energy and consciousness. The third group (and by far the largest) are not here to accept or acknowledge the challenge of change, but are here to experience it; living it out through a mortal reality of continuous drama. After all, we arrive and leave this world with only consciousness and all that transpires between birth and death, is but an evolutionary lesson.

Highly evolved beings responsible for managing the evolution of worlds (I call them the planetary tinkers) arrived on Earth prior to the eclipse of June 11th. These beings are masters of energy manipulation and are able to transcend all levels of energetic vibration. They are here to assess the Earth and make subtle adjustments that will catalyse change. The changes will be made at a cellular / sub cellular level, altering the way in which life operates. Cells (for example) will respond to new energetic vibrations - threads of light. Every living organism will be affected and the relationship between the new

energetic template and evolved consciousness will become apparent.

This planetary re-alignment is significant because human awareness is now able to assimilate the idea of change. We have the idea that working to raise one's individual consciousness is important at this time and through this work, we are raising ourselves into the energetic resonance of a new Earth.

Energetic adjustments will lead humanity towards to a deeper understanding of the Earth, enabling us to blend with all consciousness at a deeper level. In time the elemental worlds will look to forge communication links with those that adjusted to the energetic changes. We will begin to see that all things can be healed through energy and that our current levels of understanding are primitive by comparison.

I feel honoured to have been able communicate with these beings. They are not here to judge humanity (or any other life form) but do what is necessary to enable things to move forward. As far as they are concerned we are all part of the unfolding scenario and we do have a choice in how we approach it. Personally I am intrigued to see how subtle adjustments will lead to large scale, possibly exponential planetary change (like a butterfly effect).

**Book Review:**

## The Enchanted Garden

### Conscious Gardening with the Fae and Nature's Elementals

By Zorah Cholmondeley

Healer and 'plant spirit whisperer' Zorah Cholmondeley seeks to revolutionise the way we view our gardens and the natural world.

Introducing the faery realms, she invites us to witness the tremendous variety and interplay of life-forms connected to the earth. Beyond the fae, she speaks of gnomes, dragons, angels and entities such as the Master Pan, all of whom have a unique part to play in the dynamics and health of our planet. And, it is their fondest wish that we should become aware of them!

In *The Enchanted Garden*, Zorah shows how we can become allies with the fae and other nature guardians – to co-create a world with infinite possibilities for love, joy and togetherness. In a series of short chapters, she portrays faery history, introduces her muse Queen Maeve, explains how to create a garden for the faeries, discusses fears of

connecting to the fae and the importance of fun and reverie, suggests how crystals can be used in the garden, describes the significance of weather, the moon, seasonal festivals, and much more. In the second part of the book she presents communications from the spirit beings of dozens of plants and trees – from aconitum to the yew tree – with meditations and spiritual insights.

Can we learn to be sufficiently still in order to listen with our hearts to the natural world all around us, including the subtle ecosphere of the fae? This book is for anyone who seeks to relate to nature and their gardens more consciously.

'The Enchanted Garden will help you transform your garden into a sacred portal of elemental communication. It's full of practices, rituals, and a directory of nature spirits you can connect with, to activate peace and magic in your life.' – George Lizos, author of *Lightworker Gotta Work*.
