

The Challenge of our Time

By Patricia Diane Cota-Robles

<http://eraofpeace.org>

All we have to do is turn on the news to see that we are in the midst of a very tumultuous time on this planet. Challenging and even catastrophic things are taking place in every facet of people's lives. It is very easy to feel overwhelmed and fearful about the future and what is going to happen to us and our families. Unfortunately, our fear just compounds the problem and motivates us to cling to the old paradigms that are surfacing to be healed and transmuted into Light. Even if our old behavior patterns and our previous ways of thinking and acting have made us miserable, at least they are familiar to us and we know what to expect. As the expression goes, "Better the devil you know than the devil you do not know." This attitude is common, but nothing could be more counterproductive during this time of transformation.

Contrary to outer appearances, the things that are occurring all over the world are not going to destroy Humanity or the Earth. These horrific things are coming up to get our attention and to motivate us to find a better way of interacting with each other and the Earth. We have been buried in our own self-inflicted pain and suffering for so long that we are numb. We have fallen into the destructive habit of using extreme pain as our motivator. Unless something catastrophic happens in our lives, we just muddle through each day without paying much attention to what we might do to make things better. However, when something disastrous happens in our personal lives or on the planet, we start scrambling around to see what we can do to correct the situation.

The devastating environmental disaster occurring in the Gulf of Mexico at this time is a prime example of this Truth. We have known for decades that oil and coal are polluting the planet and wreaking havoc in the lives of people everywhere. Time and again, awakening souls have tapped into the Realms of Illumined Truth and come up with clean energy sources and technologies that would eliminate our use of oil and coal. Because of the power and money associated with the oil and coal industries, these new methods of energy have always been suppressed and hidden from the mass consciousness of Humanity. People have come to the erroneous conclusion that we must have oil and coal in order to survive and maintain our livelihoods. Even now, with oil destroying the precious wetlands and ecosystems in the Gulf of Mexico, many people there are upset that President Obama has called for a moratorium on deep-water drilling. This is a graphic demonstration of Humanity's distorted perception at this time.

Our lives are so interwoven with the very things that are causing the problems on Earth that we feel we must perpetuate them in order to survive. This illusion is the direct manipulation of our fear-based, fragmented human egos. Our lower human egos believe that the physical plane is all that exists and that our purpose and reason for being is to gratify our physical senses. Our human egos are aware that we are awakening and that our God Selves are beginning to reclaim dominion of our lives. Our egos are fighting tooth and nail to prevent our God Selves from taking back the power this wayward aspect of our personality usurped after our fall from Grace aeons ago.

Breaking the bonds of the paralyzing grip our human egos have had over us for lifetimes is the next critical step in the unfolding Divine Plan. An activity of Light that involves the God Selves of all Humanity and the entire Company of Heaven is now underway. Please step back, take a deep breath, and release any fear your human ego may be using to try to manipulate you. Allow the Divinity within your heart to expand and expand as you read these words with an open heart and an open mind. Miracles are happening and we are receiving more assistance from the Company of Heaven than ever before.

For some time, the Company of Heaven has been telling us that one of the greatest needs of the hour is for awakening Humanity to attain our financial freedom. This is a vital and necessary facet of the Divine Plan. The viable solutions for all of the maladies existing on Earth are beginning to flow from the Realms of Illumined Truth into the hearts and minds of Humanity. In order to bring these powerful solutions into physical manifestation, awakened people with a higher consciousness need to have the financial support to bypass the old paradigms of greed and corruption. It is the abuse of money and the compulsive greed of our human egos that have caused the appalling poverty and the inequitable distribution of wealth on this planet in the first place.

The Beings of Light have confirmed that at this very moment there are patterns of perfection in the Causal Body of God that contain practical solutions for every negative situation manifesting on Earth. These include solutions to our energy crisis, pollution, global warming, disease, poverty, crime, aging, hunger, homelessness, war, and every other human miscreation. Amazingly, there are people who have been manipulated by their human egos into suppressing the knowledge and the technologies that are available to solve these problems. Through their limited, fear-based consciousness, all these people can see is what will happen to their present financial situations if these problems are solved.

For instance, what would happen if all of a sudden disease and the degenerative process of aging were eliminated from the planet? Imagine the number of people who would be out of work: doctors, nurses, hospitals, nursing homes, rehabilitation centers, pharmacies, drug companies, medical insurance companies, and all of the workers who support these industries. Millions of people have a vested interest in keeping us sick.

What would happen if war was eliminated? If you will remember, just before September 11, 2001, and the manifestation of the Afghanistan and Iraq wars, there was a lot of talk about having to close some of the military bases in the USA for financial reasons. This was causing a great deal of concern for military personnel. Look at the millions of people who would be out of work if our military complex and the war machine were no longer needed. There are millions of people who have a vested interest in perpetuating war.

What if Humanity remembers the Oneness of Life? What if we all recognize the Divinity within each other, and we truly develop a reverence for all Life? Crime, corruption, violence, greed, and everything associated with the criminal aspects of our present existence would be eliminated. Think of the number of people who would be out of work if we no longer needed the criminal justice system, police, security officers,

prisons, prison guards, criminal lawyers, et cetera. What in the world would we watch on television or in the movies? It is interesting to observe that since many of the prisons in the USA have been privatized, the population of the prisons in this country has more than doubled. Prisons cannot succeed as a private business without lots of prisoners. There are millions of people who are vested in keeping crime alive and well.

When we ask people if they want to see disease, war, and crime eliminated, they usually say "of course." But when their livelihoods depend on these things, they are afraid of what will happen to their financial security if these conditions cease to exist. That fear creates an underlying need that perpetuates the painful things people say they would like to eliminate.

We are so accustomed to living with disease, war, and crime that we think they are normal. We cannot even imagine living without them. The concept of a world without these maladies seems unrealistic and far too good to be true. Our Father-Mother God and the Company of Heaven are striving to remind us of the fact that these terrible things were never part of our Divine Plan. We created them through the misuse of our thoughts, words, feelings, and actions and they are being perpetuated and sustained by our fear-based human egos. It is time for us to stop this insanity. It is time to turn things around.

We must free ourselves from the paralyzing grip of our human egos and raise our consciousness. Instead of looking at the outer world and coming to the erroneous conclusion that this is all there is, we need to see the bigger picture. WE ARE COCREATING THIS REALITY!!! Everything existing on Earth at this time is the result of Humanity's collective consciousness. If we do not like what is happening in our individual lives or on the planet, we can join together and cocreate a new reality. Our task is to have enough of us focusing our attention on the patterns of perfection for the New Earth to reach a critical mass.

When we lift our consciousness, we realize that we can tap into the patterns of perfection in the Causal Body of God. We have the ability to cocreate wonderful new ventures and avenues of employment that will secure our financial freedom while blessing and enhancing all Life. We do not have to limit ourselves to the parameters of what currently exists on Earth. We do not have to perpetuate pain and suffering just so we will have enough money to survive. This distorted belief is a trap that our human egos created in order to control us.

The quandary we are in at this time is that we are Ascending into the 5th-Dimensional Realms of Light. This dimension vibrates with the frequencies of God's Infinite Perfection. Every frequency of vibration that is less than the harmony and balance of God cannot exist in the 5th Dimension. This is why all of the prophecies that describe the New Earth indicate that there will be no pain or suffering; no aging, disease, or death as we know it now; no poverty, hunger, or homelessness; no war or violence.

This miraculous transformation is not going to occur because someone waves a wand and magically does it all for us. It is going to occur, because you and I and every soul evolving on this planet remembers who we are and our purpose and reason for being. We are cocreators. It is time for us to reclaim our Divine Birthright, which is God's Infinite Abundance. This will allow us to let go of the belief that we have to perpetuate

the maladies on Earth in order to have enough money for our survival. The key to accomplishing this goal is bursting the bonds of our manipulative human egos. That is in fact the next step of our unfolding Divine Plan.

This summer an event will take place involving the unified efforts of the God Selves of every man, woman, and child on Earth and the entire Company of Heaven. August 14-19, 2010, during the anniversary of the first Harmonic Convergence which took place August 15-18, 1987, Lightworkers from around the world will gather within the forcefield of Washington, D. C., in the USA. Together we will form a mighty transformer of Light through which the Light of God will pour to open the 5th-Dimensional Portal of Liberty, Divine Justice, Freedom, Victory, and the Violet Flame of God's Infinite Perfection. Our Father-Mother God and the Company of Heaven have revealed that the infinite power of these Divine Qualities will raise the energy, vibration, and consciousness of Humanity's physical, etheric, mental, and emotional bodies effectively enough to burst the bonds our human egos have used to manipulate and control us for aeons of time.

This unprecedented activity of Divine Grace and Mercy will occur through the God Self of every person on the planet in perfect alignment with his or her Divine Plan and the highest good for all concerned. It is impossible for us to truly comprehend the magnitude of what it will mean for each of us to be free from the manipulation of our egos, but our lives will be transformed. Instead of feeling like we are always walking toward our goals through tar with gale winds blowing in our faces, we will be empowered by our God Selves and the Divine Intervention of the Heavenly Realms. The patterns of perfection for our individual lives and our collective lives will manifest much more quickly. Together we tangibly co-create the New Earth.

Through this activity of Light we are ALL being called to a higher service. This is a joint effort between Heaven and Earth. Those of us who have the heart call to participate need to listen to our inner guidance and respond accordingly. Our Light and Love are a critical factor in the success of this facet of the Divine Mission.

The vehicle that will be used to gather Lightworkers within the 5th-Dimensional Portal of Freedom, Liberty, Divine Justice, Victory, and the Violet Flame of God's Infinite Perfection is the 24th Annual World Congress on Illumination. This event will be held August 14-19, 2010, at the Crystal Gateway Marriott in Arlington, Virginia.

Ask your God Self what your part is in this Divine Plan. Listen to your heart, and you will KNOW. If you have the heart call to travel to Arlington, Virginia, which is in the surrounding area of Washington, D. C., to serve Humanity and all Life in this way, ask for assistance. The floodgates of Heaven will open to pave the way for you to attend this activity of Light. Be open, be receptive, and Trust.

Many people will have the heart call to serve as the Hands of God on behalf of ALL Humanity. They will travel to Arlington, Virginia, to become part of the mighty transformer through which the Light of God will flow to open the portal of Freedom, Liberty, Divine Justice, Victory, and the Violet Flame of God's Infinite Perfection. However, if you do not have the heart call to be physically present in Washington, D. C., there will be other ways you can participate.

Some Lightworkers will be inspired to travel to various sacred sites to anchor these patterns into Mother Earth's Crystal Grid System. Others will gather with groups in their own locations to weave their Light into this unified activity of Light. And still others will join in consciousness from the solitude of their own sanctuaries.

All of these ways of participating are vital to the success of this Divine Mission. The important thing is that you truly listen to your heart and respond according to YOUR particular facet of this Divine Plan. No matter where you are guided to be, know that we are ALL One. Precious One, your Light and Love are needed NOW!

For the information you will need in order to participate in the 24th Annual World Congress on Illumination please click on the link below:
